

Crisis Records 102

A Collection of tracks from the classic 70s all remixed for CD. Collected from various sources (tape, vinyl and CD) this collection celebrates the 70s recordings by Frankie Valli and the Four Seasons with rare quality live performances and demos, plus productions by Bob Crewe and Bob Gaudio and a special set of the Four Seasons Orchestra rehearsing for the 'Valli' album.

The Bobby Darin tracks are from 1973 and 'I Wont Last A Day Without You' appears in the list of unreleased Motown recordings with the Four Seasons by Frankie Valli. Perhaps this is the Seasons backing Bobby and the same backing track was used by Bob Crewe with Frankie Valli.

Above: Joe Long who performs on Tracks 3, 4, 8, 13 and 14.
Right: Bobby Darin with Bob Crewe
